### **Annual Report:**

**July 1, 2021 – June 30, 2022**

Paul J. Hershberger, PhD, Associate Dean for Research Affairs  
Autumn James, BS, Research Affairs Coordinator

# 1

## Statement from the Associate Dean

Following are several highlights from the 2021-22 academic year for the Office of Research Affairs:

- The Research Committee awarded five seed grants.
  - Recipients in the Collaborative Translational Research Grant category were:
    - Drs. Danielle Gainer (Psychiatry) and Sydney Silverstein (Population and Public Health Sciences): “Disparate trajectories: A mixed-methods study of race and gender disparities in post-overdose outcomes.”
    - Drs. Weiwen Long (Biochemistry and Molecular Biology) and Robert Lober (Pediatrics): “Defining the roles of SRC-3 and SOX2 in diffuse intrinsic pontine glioma (DIPG).”
    - Drs. Ravi Sahu (Pharmacology and Toxicology) and Kelly Miller (Internal Medicine): “Translational relevance of the PAF system in combination chemotherapy-mediated micro-vesicle particles release.”
  - Recipients in the Junior Faculty Award to Support Diversity in Research category were:
    - Dr. Kwang-Jin Cho: “Define phosphatidylinositol 4-kinase IIIB as a novel and tractable target for blocking oncogenic K-Ras signaling.”
    - Dr. Timothy Crawford: “African American older adults living with HIV: Exploring intersectional stigma and HIV.”
- The Associate Dean of Research Affairs, Dr. Madhavi Kadakia, was promoted to Vice Provost for Research and Innovation. Dr. Paul Hershberger was subsequently appointed to serve as Interim Associate Dean for Research Affairs.
- As part of the BSOM Strategic Planning process, a subcommittee for Research identified the following priorities:
  - Promote research among clinical and basic science faculty.
  - Emphasize faculty recruitment and retention.
  - Create infrastructure for centralized support of research activities.
  - Increase financial management and reporting.
- The First Annual BSOM Research Symposium was held on April 6, 2022, an event combining the former Central Research Forum and the Medical Student Research Symposium. Three medical students and five faculty presented their research in a plenary session and 57 students and faculty posters were included in the Poster Session.
- Goals for the 2022-23 academic year include:
  - Employ staff for the Office of Research Affairs with an emphasis on increasing research activity and funding.
  - Conduct another Seed Grant application and award process.
  - Improve internal and external communications about BSOM research.
  - Collaborate with the Department of Medical Education in expanding research opportunities for medical students.
