Printing Instructions

Game Board

The FULL size of the game board is 28 inches wide by 32 inches high

Print in the office/at home

The PDF version of this game board is saved for 4-color process digital printing.

If you print it from your office/home printer, in size options please choose "fit" to print the full version of this game board

Please talk to your printing provider about details to produce the full size game board.

Game Profiles

5.5 inches wide x 4.25 inches high

Print in the office/at home

The profile can be printed on 8.5x11" paper. There will be two copies on each page.

Game Cards

11 inches wide x 8.5 inches high. There are three cards in each row for a total of 12 cards on each page.

Print in the office/at home:

The game cards can be printed on 8.5x11" paper. Please choose "Landscape" orientation when printing from your office/home printer. You can choose print on BOTH SIDES to have the back cover on the other side, or simply print every other page for card content only.

Please follow the die cut markers to cut the page into 12 cards
