

## **Resident as Teacher Seminars**

Residency programs sponsored by Boonshoft School of Medicine require all first year residents to attend the Resident as Teacher seminar, which has the following objectives:

### **Residents will be able to:**

1. Identify the elements of adult learning (androgogy versus pedagogy).
2. Coach students in making patient presentations to clerkship teams.
3. Employ microteaching skills in clinical settings.
4. Give feedback to students that enhance knowledge, skill and attitude acquisition.

Case studies, role playing and interactive learning are incorporated in the seminars, which are designed to promote positive educational experiences during clerkships.

In 2016, Resident as Teacher Seminars will be offered on September 13 and 17, and October 11 and 25, from 1 to 3 p.m.
